Lightning was the suspected cause of a water main break. The lightning hit a fire hydrant on the east side of Allendale, after which water main breaks were found in three places nearby. A boil-water order was issued for locations east of Highway 1. Lightning also struck the fire station in Allendale, damaging wires and radios.

Rain and embedded thunderstorms occurred along and ahead of a cold front as it moved east across the Mid-Mississippi Valley. Cloud-to-ground lightning strikes caused some damage in Wabash County.
